BORISLAV RADUSHEV

CV · VARNA, BG · GET /API/CV 200 OK

The work runs on the requirement.

Business analyst for regulated data. I map the process, write the specification, set the acceptance criteria, and stay until UAT signs off. Banks, energy, research, tax.

NOW	BASED
DSK Bank — Data & Access Governance	Varna, Bulgaria
RECORD	**FRAMEWORKS**
15+ years · 5 roles	BCBS 239 · GDPR · ISO 27001

CUE 01 · EXPERIENCE · 5 ENTRIES

What was scoped, what shipped, and what it proved.

Every role is a record: the brief, the work, and the outcome that backs it.

01. SEP 2025 — PRESENT

DSK-BANK | DATA-GOVERNANCE | CURRENT

DSK Bank

BUSINESS ANALYST, DATA AND ACCESS GOVERNANCE · VARNA, BULGARIA

— Worked on a centralized IAM solution to meet ECB regulations, with input from business, security and risk.

— Coordinated a data pipeline to securely pull data from multiple sources into a single information catalog.

— Documented the structure of the information catalog, assigning business, technical, and data ownership in line with BCBS 239.

PROOF — IAM scope covering ECB requirements; information catalog ownership mapped to BCBS 239.

02. AUG 2020 — AUG 2025

EON-GROUP | INFOSEC

E.ON Group

BUSINESS ANALYST, E.ON HOME APPLICATION · INTERNATIONAL

— Worked on data classification policies, security standards and access rules for GDPR and ISO 27001 requirements, with compliance and development teams on data aggregation, security and retention.

— Created access policies with information security for Entra ID (Azure AD) for international development teams, and documented asset inventories with business owners across countries and white label partners.

— Supported compliance audit teams with the documentation and setup guides for security configuration.

PROOF — Access policy for Entra ID across international teams; GDPR and ISO 27001 evidence packs for audit.

03. OCT 2015 — MAY 2020

DUKE | RESEARCH

The Center for Advanced Hindsight

BUSINESS ANALYST · DUKE UNIVERSITY · NORTH CAROLINA, USA

— Worked with research teams from Duke University on behavioral science proof-of-concept programs funded by the U.S. Government.

— Documented technical requirements with research teams to communicate with university approval bodies and coordinated development.

PROOF — Requirements for U.S.-government-funded behavioural science PoCs; approval bodies signed off, development coordinated.

04. 2015

TAXBACK | PRODUCT

Taxback International

BUSINESS ANALYST · VARNA, BULGARIA

— Worked with the product owner and a delivery team (IT, design, development and marketing) on redesigning and rebuilding the core Tax Return and Refund service across web and mobile.

— Responsible for projects aligned with the new strategy and business objectives; data compliance with GDPR built into delivery.

PROOF — Core tax return and refund service rebuilt across web and mobile; GDPR built into the delivery.

05. MAY 2010 — DEC 2014

FIRST-ONLINE | TEAM-LEAD

First Online Solutions

TEAM LEAD · VARNA, BULGARIA

— Led design and development teams to build additional services for Fantastic Services, including e-commerce solutions, SaaS applications and a local search marketing platform.

— Developed custom software for the service industry: CRM, fleet management tools, and on-demand apps for iOS and Android.

PROOF — CRM, fleet and on-demand apps shipped; top-5 UK service provider across multiple sectors.

CUE 02 · CAPABILITIES

What I am hired for.

Five capabilities. Each one comes with an engagement behind it, because a method without a delivery is just a sentence.

01

Requirement elicitation

STORIES, CRITERIA, PROCESS MAPS

I run the workshops, map the current process, and write specifications that development, testing and UAT can all work from without a second interpretation.

SEEN AT — DSK Bank · E.ON · Taxback

02

Data governance & lineage

CATALOG, OWNERSHIP, BCBS 239

I define what data is, who owns it and where it flows. Business, technical and data ownership assigned, lineage documented, evidence ready for the regulator.

SEEN AT – DSK Bank

03

Compliance & access governance

GDPR, ISO 27001, IAM, ENTRA ID

I turn regulation into access rules and configuration guides, working alongside security and risk so the controls survive audit and international teams.

SEEN AT – E.ON · DSK Bank

04

Agile delivery & UAT

SCRUM, KANBAN, JIRA, CONFLUENCE

Scope, backlog and acceptance tracked in one place. I stay through testing until UAT signs off, not until the document is handed over.

SEEN AT – E.ON · DSK Bank

05

Analysis tooling & automation

SQL, MIRO, DATA QUALITY, AI

I query the source myself, prototype the flow in Miro, and look for the step that should be automated before it is documented again.

SEEN AT — First Online · Taxback
